Vaccinations: Whole herd vaccinations to regular youngstock vaccinating, reminders, deliveries, and administration.

Scoring: Mobility, Condition, Rumen: Our VetTech is a ROMS trained mobility scorer, providing you with a clear and simple report helping to improve herd health and meet the increasing standards demanded by Red Tractor and many milk contracts. Each report shows the progress since the last assessment and problem cows are clearly identified for treatment if required.

Jade Scoe-Dagleish Our
New VetTech

Calf Routines: are new services we are offering for youngstock. These include growth checks/calf weighing, disbudding, vaccinations, colostrum immunity testing and reports. These routines ease your workload and ensure youngstock are getting quality and regular care, keeping every animal up to date with disbudding and vaccinations and talking the pressure off you. You can make use of these services at a frequency that works for your farm e.g. weekly, fortnightly or monthly.

Fly control: We have a new way to deal with the pesky flies that drive us all mad every year. Clover Friendly Flies are pteromalid wasps, also known as fly parasites. They attack fly larvae, reducing the number of larvae that turn in to flies. This is a sustainable approach to fly control, leading to less fly treatment being needed for your animals and in the parlour.

Small Holder Services: We are offering full detailed health calendars and services to help our smallholders stay on top of routine treatments, such as hoof care, vaccinations, faecal egg counts, worming and much more. Our VetTech will provide regular reminders for routine interventions and can attend your holding to give any help needed in administering treatment.

Samples: Our VetTech is trained to collect a variety of samples for diagnostic testing e.g.

Faecal egg counts, bloods, milk samples for disease identification and will issue reminders for routine testing.

Anything else?

Or if you just need extra hand for few hours, whether that is needing extra labour for your tb test, vaccinating, or even just getting sheep in from the field ready for lambing, give us a shout and we might be able to help. It can save you paying someone for all day or if you're struggling for staff.

FCN are present at most of the shows for a friendly chat and listening ear! Do visit our stands! I'm having a few days in Minehead area this weekend, and shall visit Dunster Show too whilst there! More haste, and Less speed is well worth considering when safety on the farm is being talked about!? I know from my own farming experience that on many occasions I was fortunate to come out unscathed from situations where perhaps more haste and less speed should have been practiced!

If you have children who have access to the farm...then this is even more important! Farms can be dangerous places to work in for adults, let alone children.....

The 'Mind your Head' campaign organised by **Yellow Wellies** (the farm safety foundation) This is a campaign that aims to raise awareness of and breakdown the stigma attached to poor mental health in the Farming sector and recognise that we **ALL** have a role to play no matter how big or small! The **Farmwell** website continues to be an important resource of the farming community for advice and information on Animal disease, succession planning and **Health and Wellbeing**. We have leaflets with contacts at the market or Log in to find out more at Farmwell@fcn.org.uk

Here are the usual numbers/email to ring or contact if you feel you need help... farmers take great pride in being independent and resilientthey can find it hard to admit that things are getting too much 😊

The Farming Community Network 03000 111 999, help@fcn.org.uk RABI 0800 188 4444, Open Mental Health 01823 276892, Samaritans 116 123, or email jo@samaritans.org

Take care whatever you're doing! You can contact me on 07880770887 **Remember to check up on your Neighbour too!?** Please remember to purchase tickets for the **Gig/Promotional event** being held at the market on Saturday September 21 😊....see the posters and flyers for information!...
